

COUPLES DUPLICATE BRIDGE

Lo McCarley

The purpose of the Couples Duplicate Bridge group is to have fun and fellowship while playing duplicate bridge. We started this bridge in January 2003, so far it works well.

We meet on the third Wednesday of each month in participants homes and rotate being hosts. We get together at 7:00 pm, play 21 hands, and usually finish about 11:00 or so. The couples play as partners and play either North/South or East/West on each hand.

We usually have four tables for bridge, which is as many as we figure most homes can handle. The group currently has nine couples, one more than can play at the four tables, so if all the couples want to play the same month a drawing is held to see which couple has to skip this month. We usually have had about two drawings a year. Because nine couples are already playing in the group, no new couples are being added at this time. We have couples on the substitute list and we would like more. If you want to be a substitute call Lo McCarley

To add interest and perhaps to add to the competition each couple puts \$2 a session in the kitty for prize money. First place couple wins \$7, second place \$4, third place \$3, and fourth place \$2. As you can see no one gets rich winning or goes broke feeding the kitty.
