Big Sir's Notes

After months of discussion the Branch Executive Committee has revised Branch Regulation 3 concerning waiting list policy. As you know the Branch has been working since last year to reduce the length of its waiting list. A freeze on accepting applicants to the waiting list was put in place earlier in the year pending development of a revised waiting list policy. Under the revised policy the waiting list will be capped at 15 with new additions solicited when that number is reduced to 5. At that time the Branch Executive Committee will open the waiting list for a period of two months. Applications received during the first month will be added to the waiting list by means of a drawing until the list is replenished to 15. Those applications received during the second month will be added to the waiting list in chronological order if openings remain after the drawing. Only one application can be submitted per member during each open period. Those not selected to be added to the waiting list will be placed in an applicant pool and available for selection at the next open enrollment period. Details of the revised policy can be viewed on the branch website at www.sir146.com. The Branch owes a big vote of thanks to **Stu Somerville, Chuck Bobinecz, Jack Calloway, Jim Todhunter** and **Mike Varner** for their help in developing this revised branch waiting list policy.

The Nominating Committee presented their nominations for the 2007 Branch Executive Committee to the current Executive Committee at the June meeting. The list of nominees is provide elsewhere in this issue of Sir Call. It will also be published in the August edition and voting will occur at our August luncheon meeting. Many thanks to **Ray Kan, Doug Cook** and **Bob Yolland** for their efforts in creating this list.

Cooking

Dave Johnson

1st Monday at various members' homes.

The June meeting of The Cooking Group was held at the home of **Sir Frank Mandic**, who did his usual outstanding job. Two of the high spots of his menu were an excellent Spring Salad, with his secret dressing, followed by his signature entree of Roast Chicken Croatia. Great job, Frank.

Later, **Sir Don Nunn** asked that he be relieved of his six-year stint as our leader, mentor and "go-to" guy. His wishes were reluctantly accepted. Thanks from all of us Don. **Dave Johnson** was then elected to follow in Don's footsteps. Our next meeting will be at the home of **Charlie Kiser**, on July 10—**Not the 3rd**. Please phone ahead if you plan to be there.

Fishing

Sal Costanza

4th Thursday at 8:30 am. at Diablo Creek Golf Course (Legends Grill). North Port Chicago Hwy

Fishing in June picked up quite a bit. The Lake Almanor trip was successful with salmon, rainbow trout and brown trout being caught. Biggest fish was a 5 1/2 lb. German brown. A trip out in San Francisco Bay netted some nice halibut and striped bass to 18 lbs. Our own **John Wall** had a successful trip to Eagle Lake catching some beautiful rainbows. Want to hear more? Come to our next meeting on July 28.

Sal

Tres' Gourmet

Lew Thompson

The June Tres Gourmet meeting was hosted by **Ron Binder**. Sushi and other hors d'oeuvres were served on the patio along with an interesting variety of liquid refreshments. The main course consisted of barbequed skirt steak, oven roasted asparagus topped with garlic, and a spinach salad with red onion rings, walnuts, and a raspberry vinaigrette dressing. Dessert was Ron's special homemade shortcake smothered with strawberries. None of the world's problems were solved that day but a few were identified.

Garden Club

Chuck Bobinecz

1st Thursday at 9:30 am at the Walnut Creek Presbyterian Church, 1801 Lacassie Ave., Room 305, unless otherwise announced.

The July 6th, Thursday meeting has been rescheduled to July 10th, which is a Monday. We will have a BBQ (11am – 3 pm) at **Chuck and Mary Bobinecz's** home. **SIR Lew Thompson** is coordinating the BBQ/potluck. **Chuck and Mary** will furnish the sausage and the suds. Please check with **Lew by July 3rd^h** if you plan to attend and what you can bring. Wives and guests are welcome.

Gardening tip of the month: Water the best way. In warm weather, water in the morning to give the plants a chance to drink up before the hot sun or strong winds evaporate the moisture. Water deep and infrequent. Seeds and seedlings demand moisture close to the soil's surface but established plants need deep watering to develop roots that find water in sub soils when drought strikes.

Wellness Made Easy

Purple grape juice has some of the same heart benefits as red wine, according to a small study from Boston University School of Medicine. It found that people with heart disease who drank about two cups of Concord grape juice a day for two weeks had an increase in HDL (“good”) cholesterol and a decrease in two markers of inflammation. The researchers attribute the benefits to polyphenols in purple grape juice, also found in red wine. (Of course, grape juice lacks alcohol, and alcohol itself, at least in moderation, is known to have heart benefits.) But watch out for calories: a cup of grape juice contains 150 calories, more than most juices.

Don't believe health claims made for noni juice, which comes from the fruit of the morinda plant, consumed by Polynesians and other Pacific people for centuries. Despite the claims in ads and on the Internet, this juice won't cure cancer, multiple sclerosis arthritis or hypertension, nor is it “the most important natural health discovery in decades.” All the “evidence” for noni juice comes from testimonials, often from people selling the expensive juice via multi-level marketing program. The FDA and the attorneys general of several states have forced some marketers to stop making health claims for noni. Nevertheless, the claims still proliferate on the Internet and elsewhere.

Don't eat raw sprouts, especially if you are in frail health or have an impaired immune system...that's still the advice of the FDA. And don't feed sprouts to young children. This includes not only alfalfa sprouts, but also red clover, wheat, radish, soybean, mung, broccoli, and others, including organic sprouts. The problem: the seeds themselves may be contaminated by *Salmonella* and/or *E. coli* bacteria and the bacteria grows as the sprouts germinate. Simply washing the sprouts doesn't help. The only way to ensure safety is to cook sprouts thoroughly, but that destroys the most appealing qualities of salads sprout.

If you are taking any prescription drugs, consult your pharmacist or doctor before using antacids. For instance, antacids containing aluminum can reduce the absorption of many drugs, especially when taken within an hour or two of the other drug.
